

# A STAKEHOLDER GUIDE TO LIMB PROSTHETICS IN UKRAINE

This guide explains how limb prosthetics provision is structured and funded in Ukraine.

With further questions email: [contact@protezhub.com](mailto:contact@protezhub.com)

## HOW PROSTHETICS IS PROVIDED

In Ukraine there is an assistive devices program that funds most of the assistive devices, including prostheses

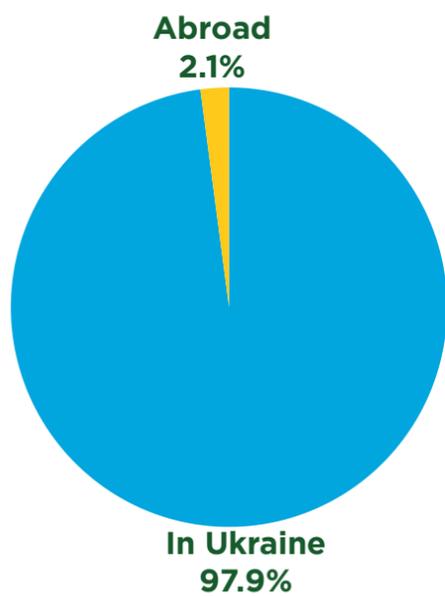

## CENTERS

There are private and state-owned prosthetic centers across Ukraine

**80+**  
Prosthetic Centers

## UKRAINE VS ABROAD

The predominant majority of amputees receive their prostheses in Ukraine. When an amputee is fitted with a prosthesis through charity, they forfeit their right to get a prosthesis through the state program.

## PROSTHESES IN 2023

The graph shows how many prostheses were funded by the Ukrainian Government in 2023 for the total of 1,46 Billion UAH.

## BILLS THAT REGULATE PROSTHETICS PROVISION IN UKRAINE

In Ukraine, Bill 321 and Bill 518 regulate the provision of prosthetics for both military and civilian amputees. The maximum amount of coverage per limb for a military amputee is ~ 48,000 EUR. There are restrictions on what types of prosthetic components can be funded by the Government (ISO certification required)

## AVAILABLE TECHNOLOGY

Ukraine has access to and utilizes most of the prosthetic technologies that are used in the developed countries.

## WORKFORCE

**300+**  
involved in prosthetics fabrication and fitting

**43**  
are professionals with 5+ years of experience fabricating and fitting prosthetics
